

Canada 2010 Recap

We had with 11 guys go walleye fishing in Canada this year. Number 12 ended up in the ER with gall stones about 5 hours before we left town. We drove to White River on June 2nd. The first group flew into Marmac Lodge at 7:30 the next morning. The second group was an hour behind. We were frying fish by noon. Over the next 4 days we caught around 400 walleyes and pike plus 11 brook trout and 2 lakers. Big brookie was 22 inches, laker was 25, walleye was 26 and pike was 36. A lot of the fish were suspended. We did good on jigs but one day it was all trolling. As always, we ate and drank way to much and had ton of fun too. We are all aready looking forward to next year. If you are ever dreaming about a fly-in trip to Canada give me a call. I can put you in touch with a great outfitter!
