

July 19, 2010

We got off to a late start on Saturday but had a great trip anyways. The rest of the guys ended up cancelling so it was just me and a long time friend from college on the boat. We landed five nice fish and missed a few others. A big white hootch with a KRW Aquaglow fly down 90 on the center rigger was by far the best rod we had going. It took four fish and lost another right behind the boat. The other fish came on copper pulling a NBK spoon. Missed bites on a rigger down 75 and a dipsey back 175 both pulling small hootches and KRW files. We marked lots of fish from 150 to 250 fow and all of the fish we caught were packed with bait. Planned to fish on Sunday but woke up to lighting and the weather channel predicting high winds and cruddy weather so we rescheduled for another day. Give me a call if you want to get out on the lake. The fishing is great!
