

August 9th, 2010

Another day of high winds kept us tied to the dock yesterday. The lake laid down last night and was beautiful this morning. We fished with two great couples from the Lansing area and enjoyed a wonderful day on the water. We never had a real hot bite but picked away pretty steady and ended up with 13 kings, a steelhead and a lake trout. Our 55 foot rigger with a Moonshine Flounder Pounder was our hot rod of the day. We also took fish on riggers running as deep as 85, half cores, full cores and copper. Spoons, plugs and rotators all took fish. We even had a fish hit a core right behind the boat while we were setting it.
