

August 14, 2010

Last night was tough fishing. It was day one of two with the No Bitchin Fishin Group. We had three boats out on the lake and only managed 11 fish between all of us. Hopefully tonight goes better for these guys. This morning was a little better and we came in with 8 fish. There are tons of fish setting out front in 80-150 feet of water but they are not biting great for any one. For as slow as it was, we were very happy with our catch. Took fish on plugs and rotators with flies, As high as full cores and as deep as 100 down. Back out tonight with the NBF guys and hope to get them a bunch of fish!
