

August 18, 2010

Well, the wind finally quit blowing..... kind of. It was rough so we had to take our time on the way out. I fished today with Fred, Carl and Barb who proved to be a hearty crew. They did a great job fighting fish and only lost a couple. We had good action early inside of 100 feet of water. Riggers 75 - 55 down with plugs on the corners and a big white hootch in the center with a KRW Aquaglow fly were all good early. So were the low divers with hootchies and flies. Later in the morning we took a few fish on full cores with plugs and mag spoons..
