

First Mate - Brian Veine

Brian and I have been best friends since we were kids and have been fishing Lake Michigan together since the day I bought my first boat. Brian teaches Math and Computers for Manistee Area Public Schools and has the summers off which works well for this business. Brian is excellent at keeping track of all the details on the boat when things get crazy. He is usually a step ahead of me when it comes to changing course to get back into the fish.
