

Do I Need a Fishing License?

If you are 17 or older, you will need a Michigan all species fishing license. They can be purchased online or at various locations throughout the State. One day licenses are available and can be purchased in advance. The bait shop at my marina (Fisherman's Center) sells licenses but they are not open in time to get one before we leave in the morning. The sporting goods department at K Mart is a good place to buy one if you get into town after Fisherman's Center closes.
