

## April 6, 2007 Update

The trout opener on the Little Manistee saw decent fishing and excellent weather. I got three skippers on opening morning but didn't land any large fish. I fished the river a couple times after opening day but with no success. As I mentioned, the weather was fantastic on opening day but it went to heck shortly after that. We ended up having a white Easter and the weather was more conducive to snowmobiling than fishing. A lot of people broke the sleds out for one last ride over the holiday weekend. I have been trying to get caught up on work around the house so that I can get to work on the boat when the weather warms up again. A few browns have been taken along the beach and the rivers are still producing a few fish. I am looking forward to warmer weather and getting back out on the Big Lake.
