

## July 19, 2007 Report

Marked tons of bait and fish in 60 - 80 foot of water out front and north but only hit one fish in there. Eventually we moved out deeper and started hitting some fish between 150 - 300 fow. Ended up 7 for 8 with most of our fish coming on hootchies pulling KRW Aquagold flies. Center rigger 105 down with a white hootch was good as were the wire divers both pulling hootchies and Aquagold flies. The only fish that came on a spoon took a green hornet 76 down on a rigger.
