

## July 21, 2007 Report

Great night on the lake tonight. We ended up 13 for 19. Started in the 13's and fished down to the 9's. Riggers started out hot with Hootchies and KRW Aquagold's set 45-35 down. Then the wire divers started to go with blue Spin Dr's and Aquagold flies. We had them set 135 - 110 back. Fishing was pretty steady from 6:30 right up till dark. Hit a quad just after the sun dipped below the water but only managed to land one of the four. All good sized adult Kings with a couple Coho's mixed in.

I have a cancellation on Aug 11 if anyone is looking for a Saturday in August. Still plenty of other dates available too. Give me a call and let's get out fishing.
