

August 9, 2007 Report

Fishing remains very good in Manistee. We were 11 for 16 this morning with 10 Kings and a Coho. Plugs have been working well for the early bite on riggers 50, 60 and 70 down. We fished pretty much straight out this morning and had a good first bite in 80 - 110 fow. Later in the morning the center rigger 75 down with a big white hootch and a KRW Aquagold fly was very good. Took fish on 7 and 10 colors of leadcore, low divers 100- 150 back and a high diver 225 back on three with a little ring.
