

August 4th Report

Great group of folks and great fishing! Donna has to be one of the happiest anglers I have ever met. She had a blast from the time we pulled out of the slip and was going strong as we said our good byes. The early bite was slow at first but then we had 5 of our six rods go off at once. Donna and her crew landed all 5 to get the trip off to a good start. We had storms blowing in North and South of us. We put the last of their limit catch in the boat around 8 am just as the winds started to kick up.
