

August 5th Report

We got off to a late start today but still managed five nice fish. Today riggers took most of our hits. We had few raps on the divers but the lead was completely dead. A green Silver Horde on our 40 foot rigger was our best rod. This was my first trip with our new down riggers and it is going to take me a while to get use to the speed. They are FAST. Fished South from the 11's down to the 8's. We had a steady pick for the first 45 minutes but then they shut down. I am taking Wednesday and Thursday off but will be fishing pretty much everday for the rest of the month. I do have the 17th open if you are still looking for a date in August.
