

August 8th, 2008 Report

The boys from Ohio were up in Manistee today and put the hurt on our fish population. They took a six man limit (only three guys pictured) by quarter to 10 this morning. They did a great job on the rods and didn't lose many at all. We are back out tomorrow for round two. The fish remain high in the water column. Best rods were 5 colors of lead with a Silver Horde plug and a blue berry muffin super glow spoon on our 30 foot rigger.
