

## Canada Trip

My Dad, brother and I have been making an annual trip to Canada the past few years. In the past, we have driven up to Wawa and then flown out of Hawk Junction into Esnagi Lake. Esnagi is 27 miles long and is actually the flooded portion of the Magpie River behind a dam. It is a great get away and my Dad looks forward to the trip all year long. Dad fished this same area back before he was married and before they built the dam. My brother and I grew up listening to stories about his trips to Canada so it is great to get to go with him.

This is a picture of my Dad and Brother with the fish we kept for shore lunch one day. Shore lunches are the best part of the trip!
