

July 20, 2009

Sorry for the lack of reports. I will try to stay current for the remainder of the season. Fished today with two wonderful couples from out of state. The lake was flat, the weather pleasant and the fish were biting. Our crew today did an excellent job and landed every fish that was hooked including a triple header. We ended the morning with 6 kings the largest weighing in at 22# and nice steelhead that came on 5 colors of leadcore. Our hot setup was a blue Spin Dr pulling a KRW aquagold fly which accounted for 4 of our kings.
